

Singer Serger

It has been said that a serger is to a sewing machine as a stove is to a microwave! I can not do without either.

The serger overedges and clean finishes your seams and garment raw edges. The serger sews a 1/4" seam and it narrow roll hems the edge of a napkin. What a wonderful machine.

Take a class and learn to use your serger at Jenny's. **[Check our serger and sewing machine instructional class information.](#)**]
