

## Jeweled letters

**I was really inspired to create my own jeweled letters** after seeing some beautiful ideas on Pinterest. It took about a week for me to collect and prepare my earring, old watches, cat pins, bridge jewelry, initial pins, brooches, Singer pins and various necklaces from the 70's, 80's and 90's. Brings back a lot of memories. Instead of hiding in boxes and jewelry boxes the jewels are now on letters I painted gold. The letters you see here stand for Jennifer and Mildred (mom). I even included some of my dad's tie pins. Several family members will get a letter for Christmas, don't tell anyone.
